OCEANS OF POSSIBILITIES

farr 395

Not really the 395, that was a [few years ago](#). This is the brand new [Farr 400](#) - their carbon racer built with the idea of a new GP boat that can be shipped around the world with relative ease. The 395 reference? That's the base price of the boat, \$395k, less sails and electronics, FOB Dubai. Looks sexy and no doubt will haul ass. Will it leap over the head start the Soto 40 has as the new standard in 40' racing? Discuss [here](#).
